The Appliance and Loft policies, hanging-decoration rules, and the full list of what **not** to bring.

Appliance and Loft Policies

PLEASE READ

REFRIGERATORS

One personal refrigerator per student, up to 2.5 cu. ft. (max 2 per room). A room may instead have a single unit up to 4 cu. ft. as its only fridge.

FRIDGE-MICROWAVE COMBO RENTALS

Skip the shopping and hauling; rent a combo at GoBreez.com that ships to your room, runs quiet and energy-efficient, and is picked up at year's end.

A rented combo is the only microwave or fridge-microwave permitted, and becomes the room's only refrigerator.

LOFTS & RISERS

Lofts are available to rent at GoBreez.com; no other lofts are permitted. Bed risers can be added to any rental, or be store-bought with a safety lip. No cinder/cement blocks or homemade risers.

OTHER RENTAL AMENITIES

Digital Safe and Air Purifier rentals are also available at GoBreez.com, and bundling products saves you more.

Digital Safe: a secure home for passports, documents, and other valuables.

Air Purifier: cleaner air with fewer allergens, dust, and odors.

Reserve by **the Early Bird Deadline of July 15th** for the lowest prices and guaranteed availability; no room info needed. Later orders may see changed pricing or availability. Risk-free: cancel before delivery for a full refund, and duplicate room combo rentals are auto-refunded.

Breez (GoBreez.com) is Wilson College's contracted appliance vendor. Avoid delays by sending all rental questions, troubleshooting, or issues directly to Breez, not campus housing. The best way to get support is to use their 24/7 Chat option found on GoBreez.com.

Hanging Decorations

GUIDELINES

- **No nails** or permanent changes to the room.
- **Sticky tac and 3M Command Strips** work best, but you are responsible for any damage they cause.
- **Never use tape** of any kind; it almost always causes damage.
- Nothing may hang from the ceiling or lights. **No flammable decorations** (live trees, straw, hay, dried leaves).
- Always **test first**. Temperature and humidity change how adhesives react over time, and any damage is the student's responsibility.

Please Do Not Bring

PROHIBITED

- ✗ Candles, incense, plug-in air fresheners, oil warmers/diffusers, or anything with an open flame
- ✗ Triple/quad sockets, plug multipliers, power strips, 2-prong or non-UL extension cords
- ✗ Exposed-coil items: toasters, toaster ovens, grills, hot plates
- ✗ Hot pots, oil popcorn poppers, bread machines, or microwaves (except the approved Fridge-Microwave combo)
- ✗ Heaters or AC units; appliances over 110V/600W; refrigerators over the stated limits
- ✗ Coffee pots or irons that aren't UL approved or lack auto shut-off
- ✗ Halogen lamps (pet heat lamps must be UL approved with a safety shut-off)
- ✗ Weapons of any kind (hunting knives, swords, bows, etc.)
- ✗ Any animal or habitat not allowed under the pet policy

Talk to Your Roommate First

In most cases you're condensing into a smaller space than you have at home, and you're sharing it with a roommate. Connect before move-in and agree on what can be shared and the rules for sharing. Think minimal but cozy, functional yet fun. Express your personality without taking over the whole room.

Forgot something? Target, Kohl's, Staples, Walmart, Lowe's, and many local favorites are all 5 to 15 minutes from campus.
